PROJECT EXPERIENCE

Weather Forecast Web App [GitHub](#)

Built a weather application using HTML, CSS, JavaScript, and a Weather API. Displays real-time weather data and forecasts. Designed a responsive and user-friendly interface.

Sign Language Recognition System [GitHub](#)

Developed a real-time sign language recognition system using computer vision and machine learning. Implemented hand tracking, gesture classification, and text-to-speech conversion. Enabled accurate real-time gesture interpretation for improved accessibility.

Snake-Raider Game [GitHub](#)

Created a browser-based game using JavaScript. Implemented scoring, keyboard controls, and collision detection. Enhanced gameplay through smooth interactions and responsive design.
